

Nurcagran® 700S

Blend of zinc soaps of unsaturated fatty acids and esters

Technical Data Sheet

CORRESPONDING TRADEMARK

Ultra flow 700S; GTI; Aktiplast ST; Dispergum GT

PRODUCT DESCRIPTION

Nurcagran® 700S is a very effective dispersing aid for white fillers.

It is particularly effective in highly loaded Silica compounds.

In the presence of silane coupling agents, it should be added after the silanization process is completed.

TYPICAL PROPERTIES

Appearance:		Beige to brown pastilles
Density	(g/cm ³)	1.0-1.2
Softening point	(°C)	85-105
Ash content	(%) max.	15-19
Storage Stability		At least 2 years under normal conditions

DOSAGE

1 to 5 phr

PACKAGING

25 kg paper bag with PE-Inlay
