

Terpene Phenolic Resin

Grade: NURCHEM TR-901L	
<p>TR-900 is light color terpene phenolic resin, used in chloroprene adhesive and hot melt adhesive as an efficient tackifier resin.</p> <p>TR-900 has narrow molecular weight distribution and some polar group, it is widely compatible with various kind of elastomers and resins. And soluble in various kind of solvents, notwithstanding polar group and non-polar group.</p> <p>TR-900 is especially used in graft polychloroprene adhesive that is mainly used for PVC leather, since it is possibly reactive to cross-linking agent.</p>	
PRODUCT SPECIFICATIONS	
Appearance	Yellowish Flake
Color (Gardner) max.	5
Soften point °C	115-120
Acid Value (mg KOH/g) max.	20-30
Heating Stability(180°C/48H) max.	10
PACKAGING:	
<p>Paper bag with PP-Inlay :25kg/bag</p> <p>Avoid store with strong oxide, damageable articles and in humidity.</p> <p>Storage is for half a year. If over it, make sure it passes your determination before use.</p>
